Dimensions				Certificates & Standards
Art.no: PX03				Approved by: RINA
Width 260 mm HS code: 732	Length 135 mm 6.9090	Height 60 mm	Weight 4,5 kg	Standards: • Complies with SOLAS MSC.81(70) Instructions: • Use non-rotating wire rope • Use a painter line where possible • Use a shackle Ø19 mm up to Ø27 mm
Applications & Use				Specifications
Installation of the hook is easy, disassemble the top shaft by removing the hexagonal securing screw, and unscrewing the nut which holds the shaft in position. Place the spliced eye or corresponding wire rope fall over the distance bush. Place the distance bush between the two side plates and place the shaft. Then make sure the shaft is fastened tightly and the hexagona securing screw is put back in place.				Maximum Safe Working Load: 1500 kg Material: Seawater resistant stainless steel Operation: The PX-03 is a manual release hook. All hook handling can be done by one person. The hook is designed to be opened manually, just push the release handle in the upward position and the hook will open.
